## COMMANDER'S MESSAGE

One of our Squadron's preferred partners is the Peninsula Pulse. The Pulse has never declined to publish our requests. If we submit by cut-off, they get it in. The Pulse falls under the Peninsula Publishing & Distribution umbrella. Peninsula Publishing also brings us *Door County Living* magazine. You may recall that Door County Sail & Power Squadron appeared as a featured article in the Late Summer 2012 edition. Why am I rambling on?? Well: We are in *Door County Living* again on page 102 of the current edition (*Early Summer 2015*).

40,000 copies just hit the stands and will be there until late June. I consider this a perfect time frame for what we want to accomplish. We were able to defer the expenses of this ad by receiving a District 10 Enrichment Fund Grant. Note that "United States Power Squadrons" along with the tag line is dominant as well as the USPS logo. This is all part of a uniform branding strategy that was adopted at the USPS Annual Meeting this January in Jacksonville. We will continue this "uniformity" approach in all future publications and promotions.

I encourage you all to pick up a couple of copies of DC Living. Show our ad to your boating friends. Who knows, they just might "stay for the friends." If nothing else, it's a fun magazine with great articles about the unique county we all cherish.

I had an opportunity to start my 2015 boating season early in Hilton Head, SC., 17-20 April. I participated in an on-the-water exercise sponsored by the Boat Operators Certification (BOC) Committee. The exercise afforded me the additional certification of Certifier Trainer (CT). This means that I can now train certifiers for Inland Navigator, Coastal Navigator and Advanced Coastal Navigator.

BOC was kicked off in 2007. There are four levels that the experienced boater can strive to achieve. IN, CN, and ACN (mentioned above) are currently active. The fourth: Offshore Navigator (ON) is in the final shake-out phase and should launch shortly. Prerequisites for each level are a combination of courses, seminars and skill demonstrations, including proficiency in on-the-water skills. Each level has increased complexity and difficulty. The Offshore Navigator will require extended/overnight ocean (Great Lakes) passage. I can't wait!!

There are currently 8 Door County members pursuing different levels of BOC. Talk to any one of us and we will tell you: "This is probably the most fun program that USPS has." Want more information? [Click here](#). Then give SEO Steve a call and he will make sure I stay busy.

That's it for now. Don't miss our Fitting-Out gathering in Egg Harbor. These are always fun.

“Carefree” came out of winter storage yesterday. Hope your vessel is out as well.

Until next month, Your Commander Bob

## FROM YOUR EDUCATION OFFICER

Well, it's really looking like summer is coming! In Door County innkeepers mark the season by the arrival of the turkeys, AKA tourists. Jeri and I, however, witnessed a real turkey we've dubbed "**Moby Turk**" marking the opening of the upcoming boating season. Jeri was out in the backyard when she came upon a tom turkey. He panicked and took to the sky, probably figuring he'd fly over to Pot Park which is about a mile across the bay at that point. He made it about half way across and then ran out of gas, plunging into the open water and forgetting that turkeys aren't supposed to swim. He stuck his neck up like a submarine periscope and started working his legs at what looked like about 5 knots. (I used 60D ST to estimate Moby's swimming speed, of course.) He made surprisingly good time toward a large skim ice floe off our beach, but when he finally floundered up on it, he crashed through. Jeri was praying to St Francis (the patron saint of animals) and I was praying to St Nicolas (the patron saint of sailors) to help him. It must have worked because after several heart-rending breakthroughs he made it across to the sand. After shaking off and hunkering down in some weeds for about half an hour while we observed him anxiously with our binoculars, he got up and walked away, seemingly none the worse for his cold adventure. I've seen a lot of sea birds but this swimming turkey was a first. I bet he had a sea story to tell the hens that night about wearing a PFD.

Speaking of turkeys and the lack of PFD'S, Gary King, Bob DeNoto and I were taking sights at Lilly Bay a couple of weeks ago for the JN course when three teenage boys with an open aluminum boat showed up to do some fishing on frigid Lake Michigan. So here we are, three old guys with sextants eyeing these kids who undoubtedly figured we were DNR. I asked the nearest guy if they had PFDs aboard. I knew that if they fell in hypothermia would happen quickly (if they didn't die from the gasping reflex first.) The young man said, "Oh yeah" and pointed to the seat. I guessed he was thinking of the cushion (singular) peeking out from under the seat. They launched and got about a quarter mile off the beach and proceeded to put a plywood board over the two seats which they stood on to fish like bass fisherman do in hot pursuit of brown trout. Of course no one had a PFD on. I didn't read about an accident so they must have gotten back to shore in one piece but that was sure a bonehead turkey move on their part. I'm just sorry I wasn't more insistent when I mentioned the PFDs in the first place.

Both **N** and **JN** are nearing conclusion I am happy to report. I find myself singing in the shower what I call the JN song in anticipation of actually becoming a JN. This is a goal I have wanted to achieve for a long time. It feels great to take a challenge that doesn't come easily,

and that I feared, and then to meet it confidently and joyfully. Maybe I should rename Junior Navigation to Joyful Navigation. I hope that those of you who have stopped your educational journeys at AP will be encouraged to move on and up. As the saying goes, "The purpose of life is the journey"! Without a goal we have no control over the journey. I'm here to tell you JN is quite a trip.

**Electronic Navigation** will begin 21 May – 18 June under the able instruction of Chuck Stone. There are seven students lined up to take the course which is being held at NWTC on Thursday nights in room 103 from 1830—2030. It is not too late to sign up if anyone else is interested in taking this course. Just let me know soon. **EN** is a requirement for the Advanced Coastal Navigator passport. We will be conducting **ACN** on-the-water skills this summer. We have members who can do on-the-water training for the Inland Navigator and the Coastal Navigator tickets that go along with our courses and seminars ashore. Contact me if you are interested in pursuing your **IN**, **CN** or **ACN** or for more information. These on-the-water tests really put together, in a hands-on way, the skills we have learned.

**America's Boating Course** will be taught at NWTC 8 June – 11 June from 1830-2030. There will be at least two instructors for this course because Bill Galligan will not be able to teach this year. It will take at least two if not three of us to stand in for him!

We have a really exciting summer seminar series set for Saturdays from 0900 – 01100 at Quarterdeck Marina. The schedule is as follows:

<b>June 20</b>	<b>Partner in Command</b>
<b>June 27</b>	<b>Basic Coastal Navigation</b>
<b>July 11</b>	<b>Trailering</b>
<b>July 18</b>	<b>Sail Trim</b>
<b>July 25</b>	<b>Anchoring</b>
<b>August 1</b>	<b>Advanced Power Boat Handling</b>
<b>August 8</b>	<b>Paddle Smart</b>

I love the summer seminars because they are free and give you the option to buy materials after the course so you can be the judge if you want them to remember the seminar. They are really well put together and many people decide to buy after they see them. We hope to draw in members and non-members to these seminars in order to increase safe boat handling and membership in our squadron at the same time.

Fair Winds, God Speed, and SEE YOU ON THE WATER,  
Steve

## SAFETY OFFICER'S REPORT

May 16-22 will be National Safe Boating Week. Here in Door County, the weather will be cool, even if our boats are in the water. Therefore we give special emphasis on safe boating starting in June at marinas, conducting many vessel safety checks and holding a flare shoot/fire extinguisher demonstration for the public. The headliner for the national campaign is "LOVE THE LIFE-WEAR IT!" The downward trend in annual boating fatalities reflects the success of nationwide emphasis on safe boating, especially wearing life jackets.

BOATING FATALITIES											
1991	924	1996	709	2001	681	2006	710	2011	758		
1992	816	1997	821	2002	750	2007	685	2012	651		
1993	800	1998	815	2003	703	2008	709	2013	560		
1994	784	1999	734	2004	676	2009	736				
1995	829	2000	701	2005	697	2010	672				

Practicing safe boating requires us to know the causes of accidents and fatalities. That's why the United States Coast Guard publishes accident and fatality statistics annually. The 2013 fatality records appear below.

Taken from the fatality records, examples of the importance of wearing life jackets are clear.

- Cabin motorboats: 17 drownings in which 15 victims wore NO lifejacket.
- Open motorboats: 188 drownings in which 172 victims wore NO lifejacket.
- Kayaks & canoes : 93 drownings in which 65 victims wore No life jacket.

### WISCONSIN REGULATIONS – LIFE JACKETS (Personal Flotation Devices-PFDs)

- All vessels (including canoes, kayaks and paddle boards) must have at least one USCC-approved life jacket, Type I, II, III, or V for each person on board.
- In addition to life jackets, one USCC-approved Type IV (throwable) must be on board vessels 16 feet or longer (except canoes and kayaks) and be readily accessible.
- Federal law requires children under the age of 13 to wear a USCC-approved PFD while underway in an open vessel on federally controlled waters.
- Sailboarders and windsurfers are exempt from PFD requirements but are encouraged to wear them.
- Every person on board a Personal Water Craft (PWC) must wear an approved life jacket.

Besides being USCC-approved, all PFDs must be:

In good serviceable condition; no tears, rips, broken straps or snaps.

Readily accessible; can be put on quickly in an emergency.

Of proper size for the intended wearer, based on body size and weight.

Our Vessel Safety Examiners inspect life jackets according to the above regulations.

**FRIENDLY REMINDER FROM OUR  
TREASURER**

It's that time of the year again when our memberships are coming up for renewal. National has decided to send our membership renewals by email to save on postage. After a few weeks, if you do not respond they will send an invoice by the postal service. Everyone who does not have an email address will also receive their invoices by the postal service. Please renew your membership to continue to enjoy our excellent Education Department and Social Events. It is very easy to renew online. You can click on the link in the renewal notice you get by email or you can [click here](#) to go to the National website. You will need 3 things:

1. Your invoice #
2. Your certificate #
3. Your credit card #

Both your invoice # and certificate # can be found on your renewal notice. If you can not find your renewal notice contact me [weiscynthia@yahoo.com](mailto:weiscynthia@yahoo.com) and I will find the information for you.

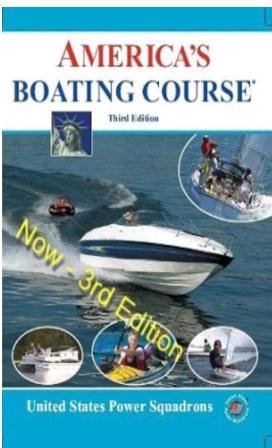

Also, I have three burgees priced at \$25—please let me know if you would like to purchase one.

Finally, I will be sending out a new roster on May 17. Please let me know if you have any changes to your roster information.
